## ENROLLMENT AND ATTENDANCE QUESTIONS AND ANSWERS

### What information is required in order to enroll a student in a Florida public school?

- A certified birth certificate which you may request from your local health department or online at <http://www.floridahealth.gov/certificates/certificates/birth/>
- A Florida Certificate of Immunization, Form 680 (blue card), completed by a Florida physician or by a Florida county health department. Parents should obtain a copy of their child's complete immunization history before leaving their current residence, as this form is not available to the general public. Information on Florida school immunization requirements is available at [http://www.floridahealth.gov/programs-and-services/immunization/publications/\\_documents/16-17-schoolentry-eng.pdf](http://www.floridahealth.gov/programs-and-services/immunization/publications/_documents/16-17-schoolentry-eng.pdf)
- Evidence of a medical exam completed no less than 12 months prior to the child's school entry date. As long as the medical exam meets this 12-month requirement, parents may submit this information on the School-Entry Health Exam Form (DH 3040) or provide a copy of the exam obtained from their current physician before moving to Florida. This form and the accompanying guide are available online at <http://sss.usf.edu/resources/format/pdf/schoolentryexam.pdf>
- Official documentation that the parent(s) or guardian(s) is a legal resident(s) of the school district attendance area, such as a utility bill, rent receipt or notarized statement from your landlord.

### What are the requirements for Florida public school kindergarten admission?

Florida law (Section 1003.21(1) (a) 2, Florida Statutes) specifies that children who have attained the age of five years on or before September 1 of the school year are eligible for admission to public kindergarten during that school year based on rules prescribed by the school board. Students are eligible for kindergarten attendance provided they meet the age requirement.

### If a child turns five years old after September 1, can a waiver be obtained from the Florida Department of Education to allow him to attend kindergarten?

No. Florida Statutes or State Board of Education Rules do not include any provision to waive the age requirement for kindergarten enrollment.

### Can a child whose birth date is after September 1 who has completed a Florida nonpublic school kindergarten program be admitted into a Florida public school first grade?

No. A child who has satisfactorily completed the requirements for a nonpublic kindergarten from which the district accepts transfer of academic credit, but who does not turn six on or before September 1 of the school year, would be admitted into kindergarten and progress according to the district's student progression plan. (Section 1003.21(1) (b), Florida Statutes). We recommend that the parent(s) contact the director of elementary education at the local school district to address concerns regarding progression and available curricula.

### Does compulsory school attendance apply to Voluntary Prekindergarten (VPK)?

No. Florida's Voluntary Prekindergarten (VPK) Program has a separate set of enrollment and attendance requirements, which are not included under the authority of public K-12 compulsory school attendance laws. VPK is the result of a 2002 constitutional amendment, which required a voluntary prekindergarten program for all four-year-old children in Florida by fall 2005.

### Voluntary Prekindergarten Enrollment F.S. 1002.33

Each child who resides in this state who will have attained the age of 4 years on or before September 1 of the school year is eligible for the Voluntary Prekindergarten Education Program during either that school year or the following school year. The child remains eligible until the child is admitted to kindergarten, or unless he or she will have attained the age of 6 years by February 1 of any school year. A parent whose child was born from February 2 through September 1 of a calendar year have the option of enrolling their child in a VPK Education Program in the school year in which the child becomes eligible, or deferring enrollment until the following school year. For information regarding registration and VPK Programs in your area, please contact Staci Williams, ESE Director at 850-674-8734 ext. 229.

## **ATTENDANCE POLICY AND TRUANCY PROCEDURES**

### **Grades K-12**

Each parent of a child within the compulsory attendance age shall be responsible for such child's school attendance as required by **F.S. 1003.24. Florida Statute 1003.26** requires the parent of a student to justify each absence of the student. The justification will be evaluated based on adopted district school board policies that define excused and unexcused absences.

Excused absences may only be used for the following legitimate, documented reasons:

- Illness and/or medical care
- Death in Family
- Absence for treatment of autism spectrum disorder (HB 7069)
- Legal Reasons
- Religious Holidays or instruction
- Financial or other insurmountable circumstances as determined by the prior approval of the principal
- Head lice, a maximum of two days for each occurrence
- Planned absence approved in advance by the principal/designee

Examples of unexcused absences may include:

- Missing the school bus
- Oversleeping
- Shopping and/or pleasure trips
- Excessive illness (without physician verification that medical condition justifies a pattern)
- Failure to communicate the reason for the absence with the school

It is the responsibility of the parent(s) or guardian(s) to provide a written statement indicating the reason for **ALL** absences within **three (3) days** of the student's return to school.

A parent note will be accepted for **any three (3)** absences during the grading period. Any other absences will only be excused with a note from a doctor, dentist, school health nurse/aide, funeral program of an immediate family member, or documentation for a legal reason. Final determination of whether an absence or early dismissal is excused or unexcused is the responsibility of the local school principal/designee. Any planned absences, other than medical appointments, must be approved in advance by the principal/designee.

### **Make-Up Work**

- Student must contact their teacher upon returning to school for make-up and assignments
- Make-up work must be turned in within 5 school days from the absence
- When given advance notice of a test or assignment, it must be turned in on the day the student returns to school after the absence
- Missing work due to an absence will be given a grade of "1" until the work is made up. When the make-up period has expired and the work is incomplete, the grade will be changed to "0"
- If the teacher is absent when a student returns to school from an absence, the time to make up work may be extended
- Extension of the amount of time to make-up work can be approved by the principal

For students in grades 6-12, when attending a school sponsored club event or field trip, they must be present the day before the trip and day after the trip for the school sponsored trip to be an excused absence. The principal may excuse the absence for a legitimate, documented reason.

### **Recurring Illness**

When a student has a recurring or chronic illness, parents will be required to have their medical doctor certify the extent of the illness each nine weeks. **F.S. 1003.24** states if a student is continually sick and repeatedly absent from school, he or she must be under the supervision of a physician in order to receive an excuse from attendance. Such an excuse provides that a student's condition justifies absence from

more than the number of days permitted by the district school board. The **Physician's Certification Form** must be picked up from the school principal.

### **Tardiness**

Students are expected to be in class on time and remain in class until the end of the class period. Students who arrive at class 10 minutes late or leave class 10 minutes early will be issued a Late Absence for that period. The school principal will determine if the Late Absence is excused or unexcused. Three unexcused Late Absences in a grading period will be considered an unexcused absence for that period.

Incentives for good attendance are encouraged, but will be at the direction of the individual school principals.

Students with a continued pattern of absence will be referred to Truancy Court.

<b>EXCUSED ABSENCE</b>	<b>REQUIRED ACTION</b>
Any 3 absences	Parent note for days absent
Therapy from licensed health care professional for the treatment of autism spectrum disorder	Note from licensed health care practitioner or behavior analyst
Personal illness after any 4 absences	Note from doctor, dentist, or school health nurse/aide
Family death / illness	Parent note for days absent
Chronic/long-term illness	Medical documentation Physician's Certification Form
Parent trips	Pre-approved by principal
Educational trips	Pre-approved by principal
School-sponsored activity	Pre-arranged with administration (student marked "present")
Judicial action	Copy of subpoena or summons Notice of juvenile detention
Military dependents visit in time of combat duty	Approved by principal
Religious holidays	Prior written notice to principal or teacher

### **SCHOOL RESPONSIBILITY AND AUTHORITY RELATED TO TRUANCY**

If a student has had at least five (5) unexcused absences, or absences for which the reason is unknown, within a calendar month or ten (10) unexcused absences, or absences for which the reason is unknown, within a 90-calendar day period, the student's primary teacher shall report to the school principal/designee that the student may be exhibiting a pattern of non-attendance.

The principal shall, unless there is clear evidence that the absences are not a pattern of nonattendance, refer the case to the school's child study team to determine if early patterns of truancy are developing.

If the child study team finds that a pattern of nonattendance is developing, whether the absences are excused or not, a meeting with the parent must be scheduled to identify potential remedies.

After fifteen (15) unexcused absences accumulate within any ninety (90) calendar days, the District will determine the appropriate steps for the enforcement of the Florida Compulsory Attendance Statute, **Florida Statute 1003.21**.

## IMMUNIZATIONS AND VACCINATIONS

All students entering Calhoun County School District for the first time need to show proof of a physical exam within the last calendar year. All student immunizations must also be up to date to be eligible to attend school. Immunizations are recorded on the *Florida Certification of Immunization*, DH 680, which can be obtained from the Calhoun County Health Department, your doctor's office or the online Florida SHOTS program.

## MENINGOCOCCAL DISEASE

Meningococcal disease is a serious illness caused by a type of bacteria called *Neisseria meningitidis*. It can lead to meningitis (infection of the lining of the brain and spinal cord) and bacteremia or septicemia (infections of the blood). Meningococcal disease often strikes without warning – even people who are otherwise healthy.

Meningococcal vaccination is recommended for all preteens and teens. All 11 to 12 year old **should** be vaccinated with a single dose of a meningococcal conjugate vaccine. Since protection decreases over time, a booster dose is recommended at age 16 so teens continue to have protection during the ages when they are at highest risk of meningococcal disease. Teens and young adults (16 through 23 year old) **may** also be vaccinated with a serogroup B meningococcal vaccine, preferably at 16 through 18 years old.

For additional information go to <https://www.cdc.gov/vaccines/vpd/mening/public/adolescent-vaccine.html>

## SUNSCREEN (HB 7069)

A student may possess and use a topical sunscreen product while on school property or at a school-sponsored event or activity without a physician's note or prescription if the product is regulated by the United States Food and Drug Administration for over-the-counter use to limit ultraviolet light-induced skin damage.

### **NO NIT POLICY**

Calhoun County Schools have a “no nit” policy. Students may not attend school if they have head lice. Any students found to have live lice and/or nits will be sent home. Before returning to class, students will need to be brought in by a parent or guardian to be checked by a school official. Your child must be free of nits before they can return to class. Students with head lice, may receive an excused absence from school for a maximum of two days for each occurrence.

### **Fl♥rida KidCare**

Florida KidCare is the state’s children’s health insurance program for uninsured children under age 19. It includes four different parts, or programs: MediKids, Healthy Kids, Children’s Medical Services and Medicaid. When you apply for the insurance, Florida KidCare will check which program your child may be eligible for based on age and family income. There are several ways to apply for Florida KidCare:

You can apply for Florida KidCare by calling 1-888-540-5437, by telephone, apply online, or print an application and instructions. For more information visit [www.floridakidcare.org](http://www.floridakidcare.org).

## SAFETY AND SECURITY

### **Safety Precautions**

The Calhoun County School District considers the safety of students and staff our number one priority. We want you to know that every precaution possible is being taken to make sure your child feels safe and secure during the school day.

Some of the precautions such as requiring photo identification for student sign out, limiting public access to some parts of the school, etc., may be a bit inconvenient. But these minor inconveniences are a small price to pay for the safety and security of students.

### **Parent Roles in School Safety**

It is important to recognize that parents play a critical role in school safety. Parents can help children develop healthy emotional well-being and build positive attitudes toward school safety.

1. **Reassure children that they are safe.** Emphasize that schools are very safe. Let children talk about their feelings, help put them into perspective, and assist them in expressing these feelings appropriately.
2. **Make time to talk.** Children and youth do not always talk about their feelings readily. Maintain open communication with your children. Parents are encouraged to talk with administrators and staff about their children's problems and budding disputes within the student body. This will go a long way toward defusing tensions within the school.
3. **Review safety procedures.** This should include procedures and safeguards at school and home. Help children identify at least one trusted adult at school to whom they talk with if they feel threatened or at risk.
4. **Encourage reporting.** Students have an obligation to themselves and to their classmates to bring information about dangerous situations to adults at the school so that there can be a quick and appropriate response to protect their safety. (The safety and well-being of friends and classmates are more important than the issue of tattling or "marking.") "See Something, Say Something, Do Something!"
5. **Use social media responsibly.** Parents and students can help make schools safer by not passing along rumors to neighbors or friends. Instead, report the rumors to a school administrator who will then investigate and share the information with the law enforcement, if necessary. Please refrain from posting perceived campus safety issues or shortcomings on social media. This activity has the potential to place our children and staff at unnecessary risks.
6. **Update FOCUS.** Keep contact information current so that mass communications can be received when applicable. **Notify the school EVERYTIME contact information changes.**

### **Safety Drills**

The schools conduct safety drills throughout the year. As in the past, drills will include fire drills, tornado drills, bus evacuation drills, campus evacuation drills, and lockdown drills. In addition, due to a law passed by the Florida Legislature in March of 2018, students will participate in active threat drills. All of these drills are designed to help students practice how to stay safe in the event of an emergency.

When drills are being conducted, the school staff will be involved in the drill and will be unable to conduct normal school business. Parents and visitors will not be allowed to access the campus until the drill is completed.

### **AlerT**

Staff and students practice AlerT active threat protocols. Parents are encouraged to review the AlerT protocol and to have discussions with their children about AlerT and other safety drills that will take place during the year.

### Student/Parent Reunification

Circumstances may occur at the school that requires parents to pick up their students in a formalized, controlled release. The process of controlled release is called a reunification and may be necessary due to weather, a power outage, hazmat situation or if a crisis occurs at the school.

In most small emergency events students are evacuated out of their classrooms to a central location away from the affected classroom building. After the emergency has been corrected, the students are released back into the classrooms and our normal school day resumes. This procedure works very well for the short duration/minor emergencies.

However, in a larger or more significant event, there may be a need to evacuate students to an off-site location that is a safer area further away from the dangerous or hazardous incident.

The reunification of students with parents or guardians following a crisis event is of critical importance. These procedures help to ensure that all students are accounted for and establish a sense of safety and security.

### **The Reunification Process**

Keeping our students and staff safe is our main priority. If there ever comes a time in which we have to evacuate one of our campuses, we want parents to be aware of our reunification plan. Here are a few key points to know and to follow. All information regarding an incident will be communicated to parents via Parent Square. Please keep your information current at the school. In case of an evacuation, DO NOT try to get on campus, but rather go to the reunification site that will be listed on Parent Square. Have your ID with you. While many people at the school may know you, we will have district personnel working the reunification and having your ID will make things work smoother and faster. Once you are 'checked in', a district employee will collect your child from our holding area and bring them to you. Please do not try to go to the holding area as this will disrupt our procedures and slow down our process of getting everyone's children to them as safely and as quickly as possible. Once you have your child, please leave the location so we may assist others. Having to implement a reunification plan may be frightening to parents, but know your child is being cared for by their teachers and familiar staff from his/her school.

### **Interviews and Counseling**

In some cases, parents may be advised that a law enforcement investigation is underway and may be advised that interviews are necessary. In extreme cases, parents may be pulled aside for emergency or medical information.

### **The following are helpful reunification tips:**

- A. **Please understand the reunification process may take several hours to complete**
- B. **DO NOT come to the school because you may impede emergency responders**
- C. **DO NOT call the school because you will tie up the phone lines**
- D. **Wait for notifications to be pushed out through the ~~District or local news~~ Parent Square**
- E. **Keep your mobile device with you to receive messages from the school**
- F. **Please be patient**
- G. **Parents/guardian will need a government photo ID to pick up their children**

### **Release of Student to Parents**

After arriving on the school campus, a student is under the jurisdiction of school personnel. Under no circumstances shall a student leave the campus before dismissal time unless the office has granted permission.

Students may be signed out by the parent/guardian or trusted adults listed as emergency contacts. Photo Identification or a driver's license will be required if the parent/guardian or trusted adult is unknown to the school office staff.

Students must be physically signed out in the school office.

Written permission from the parent and photo identification is required for a person not listed on the emergency contact list to sign out a student. The parent will be contacted to verify permission before the student is released.

Only a custodial parent/guardian or those listed as an emergency contact may sign a student out of school unless the checkout is an emergency situation with approval of the administration.

If a student is to check out of school, he/she should bring a note to the attendance office upon arrival to school so that verification can be made before the checkout.

For middle and high school students, notes alone will not be accepted for a student to leave campus during the day; parents/guardians must call the school.

Parents are discouraged from checking out their student by telephone unless it is an emergency.

### **Leaving School During the School Day**

After approval has been granted, the student must sign out, giving his/her whole name, destination, and the time. If the student returns to the school that day, he/she must also sign in, noting the time of the return.

Between 11:00 a.m. and 1:00 p.m., students in grade 6 –11 may not sign out without administrative approval unless the parent/guardian comes into the office and signs the student out.

### **Visitors**

#### **Visitor Identification**

To enter a campus facility, visitors must obtain a badge. Identification will be checked by the electronic visitor management system to ensure the visitor is an authorized individual having a need to be on campus. The badge must be worn at all times and returned to the office upon leaving the campus. The badge must be worn at all times and returned to the office upon leaving the campus.

**NO STUDENT VISITORS ARE ALLOWED.**

### **School Related Deliveries**

Parents may bring school materials and/or supplies (class projects, musical instruments, gym clothes, etc.) to the school office for delivery to their child/children.

### **Food Deliveries**

No outside food deliveries to schools will be accepted. Parents may deliver food to their child/children only. Such food items should be delivered to the school office.

### **Balloons and Floral Arrangements**

Balloons will not be accepted from florists or parents for delivery to students at school due to safety hazards on buses and other vehicles. Floral arrangements must be in a non-breakable container to be allowed on buses.

### **SAFETY IN PRIVATE SPACES ACT**

## **READING DEFICIENCY**

Any student in kindergarten through grade 3 who exhibits a substantial deficiency in reading, based upon screening, diagnostic, progress monitoring, or assessment data; statewide assessment; or teacher observations must be provided intensive, explicit, systematic, and multisensory reading interventions immediately following the identification of the reading deficiency. The student's reading proficiency must be monitored and the intensive interventions must continue until the student demonstrates grade level proficiency in a manner determined by the district, which may include achieving a Level 3 on the statewide, standardized English Language Arts assessment.

The parent of any student who exhibits a substantial deficiency in reading must be notified in writing of the following:

1. That his or her child has been identified as having a substantial deficiency in reading, including a description and explanation, in terms understandable to the parent, of the exact nature of the student's difficulty in learning and lack of achievement in reading.
2. A description of the current services that are provided to the child.
3. A description of the proposed intensive interventions and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency.
4. That if the child's reading deficiency is not remediated by the end of grade 3, the child must be retained unless he or she is exempt from mandatory retention for good cause.
5. Strategies, including multisensory strategies, through a read-at-home plan the parent can use in helping his or her child succeed in reading proficiency.
6. That the statewide, standardized English Language Arts assessment is not the sole determiner of promotion and that additional evaluations, portfolio reviews, and assessments are available to the child to assist parents and the school district in knowing when a child is reading at or above grade level and ready for grade promotion.
7. The district's specific criteria and policies for a portfolio as provided and the evidence required for a student to demonstrate mastery of Florida's academic standards for English Language Arts. A parent of a student in grade 3 who is identified anytime during the year as being at risk of retention may request that the school immediately begin collecting evidence for a portfolio.

8. The district's specific criteria and policies for midyear promotion. Midyear promotion means promotion of a retained student at any time during the year of retention once the student has demonstrated ability to read at grade level.

## HIGH SCHOOL REQUIREMENTS FOR GRADUATION

### **GENERAL REQUIREMENTS FOR HIGH SCHOOL GRADUATION**

Florida students entering high school may choose from the following options to earn a standard diploma:

- 24-credit program
- 18-credit, Academically Challenging Curriculum to Enhance Learning (ACCEL) option

All of these graduation paths include opportunities to take rigorous academic courses designed to prepare students for their future academic and career choices. All students, regardless of graduation program, must earn a cumulative GPA of 2.0 on a 4.0 scale and achieve a passing score on the statewide, standardized Grade 10 ELA Assessment or earn a concordant score on the ACT or SAT. Students who entered grade 9 in the 2011-12 or 2012-13 school years must achieve a passing Algebra 1 EOC assessment score or earn a comparative score if enrolled in Algebra 1 after the 2010-11 school year to graduate with a standard diploma. Students who entered grade 9 in 2013-14 and thereafter, must achieve a passing Algebra 1 EOC assessment score or earn a comparative score in order to graduate with a standard diploma.

Students who complete a minimum of 18 credits, achieve a cumulative GPA of a 2.0 on a 4.0 scale and earn a passing score on the statewide assessments required for high school graduation have an option to earn a standard high school diploma. This option requires that a student complete the standard course requirements for the 24-credit program applicable to the student's grade 9 cohort year without the required physical education course, only three elective courses, and without the online course requirement.

Students who plan to graduate with the 18-credit option must declare no later than September 1 of their junior year. Students and their parents will be required to complete a contract outlining course requirements and timelines for graduation.

Each high school is required to advise each student of courses through which a high school student can earn college credit, including AP, dual enrollment, early admission and career academy courses and courses that lead to industry certification, as well as the availability of course offerings through virtual instruction. Each high school is also required to advise each student of the early and accelerated graduation options under s. 1003.4281, F.S. Students must be advised of eligibility requirements for state scholarship programs and postsecondary admission.

## **STUDENTS WITH DISABILITIES**

Children in public schools who have special learning needs because of a disability are called exceptional students. The special help they are given at school is called exceptional student education, or ESE. The purpose of ESE is to help each student with a disability progress in school and prepare for life after graduating from high school. ESE services may include special teaching methods and materials, technology devices, therapies, special transportation, or other supports.

Students who need ongoing intensive or specially designed instruction in school because of a disability qualify for exceptional student education. To receive ESE services, your child must meet the requirements of at least one of the exceptionality categories recognized by the Florida Department of Education which are:

- Autism Spectrum Disorder
- Deaf or Hard of Hearing
- Developmentally Delayed
- Dual-Sensory Impaired
- Emotional/Behavioral Disability
- Gifted
- Hospital/Homebound
- Intellectual Disability
- Language Impaired
- Orthopedically Impaired
- Other Health Impaired
- Specific Learning Disability
- Speech Impaired
- Traumatic Brain Injured
- Visually Impaired

The eligibility criteria, or requirements, for each of the exceptionality categories are outlined in Florida's laws and rules. Some students have one disability, and others have more than one. Not all students with the same disability have the same needs or require the same services. ESE services are designed to give each student the special help they need.

A team of people make decisions about the student's needs and services. This team is called an Individual Educational Plan (IEP) Team. The student's parents are part of this team. The team develops a document for the student called an Individual Educational Plan (IEP). This plan is specific to a student's individual needs. This process is based on the requirements of the Individuals with Disabilities Education Act (IDEA).

For more information call Staci Williams, ESE Director at 850-674-8734 ext. 229.

6. Dual Enrollment courses must conform to the college grading policy. Only alpha grades will be recorded on the transcript.
7. All dual enrollment courses will receive the same course weight as AP, IB, and AICE courses when grade point averages are calculated. This GPA weighting for dual enrollment courses applies to students entering grade 9.
8. Upon the recommendation of the IEP team, certain students with disabilities may have grades suspended in core content areas as determined on an individual basis.

**Grade Determination:** Each grading period, when a numerical grade is given, the average grade in each subject shall be derived as follows:

1. There shall be a minimum of 13 recorded grades in each grading period. At least nine of the thirteen should be daily grades and four should be derived from tests, reports, notebooks, book reports, projects and special assignments. The daily grade average will count as 1/3, and the average of the tests, reports, notebooks, book reports, projects, and special assignments shall count as 2/3 of the nine-week grade in any subject.
2. In cases where teachers have students scheduled in their classes less than 45 days during the nine weeks session, a prorated number of grades shall be used to derive the nine weeks grade.
3. If a student enrolls in school without transfer grades, the teacher will provide for a method of review, and assess the student's mastery of the missed Next Generation Sunshine State Standards. The grade thus determined will be averaged into the nine weeks grade as a transfer grade would be averaged.
4. Elementary P.E. and Music grades will be determined by the student's participation and conduct and do not require the minimum 13 recorded grades in each grading period.

**Explanation of Daily Grades:** Examples of daily grades are routine homework assignments both written and/or reading assignments, daily papers done in class, participation when discussions are held in class

or when a question and answer session is taking place, evidence of diligent study when reading assignments are made in a class, or a brief daily test.

When deemed necessary, teachers should keep samples of daily work in order to document the quality of work being done and the daily grades being given. At least one daily grade will be recorded each week of the nine-week grading period to reflect that week's work.

**Semester Average:** Each grading period will count 50% of the semester average grade. Semester exams will no longer be given.

When a final grade is given for a subject at the end of the school year such grades shall be derived by averaging the semester grades.

The statewide, standardized Algebra I, Biology I, Geometry, Civics and United States History EOC assessments will count 30% of a student's final grade for that course.

**Extra Credit:** At the teacher's discretion, extra credit points may be earned by a student during a nine weeks session in a subject. From 1 - 3 points may be earned by each student for an assigned project, report or other special assignment which is approved by the teacher in advance, provided the assignment relates to appropriate classroom studies. Special assignments must be above and beyond any other classroom assignments made during the nine weeks grading period. Extra points are to be added to the average grade for the nine weeks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer.

### **Procedure to Notify School Principals Regarding a Specific Concern**

In accordance with the rights of parents, Calhoun County School District reinforces the fundamental right of parents to make decisions regarding the upbringing and control of their children. The District requires its personnel to encourage a student to discuss issues relating to his or her well-being with his or her parent or to facilitate discussion of the issue with the parent.

Parents may notify the principal, or his or her designee, regarding specific concerns at his or her student's school about practices and procedures. Parents may telephone or email to schedule a school conference with the principal, or his or her designee about the specific concern. Parents are encouraged to contact the school in a way so as not to disrupt the normal operations of the school.

After notification by the parent, the principal or his or her designee, will investigate the concern. The principal has seven calendar days to resolve the concern. The principal or his or her designee will contact or schedule a school conference with the parent by the end of the seven days.

Parents should contact the District Superintendent or his or her designee if concerns remain unresolved. After an investigation, a resolution will be made within (calendar) 30 days.

If a concern is not resolved by the school district, a parent may contact the Commissioner of Education to request the appointment of a special magistrate. The special magistrate will render a recommended decision for resolution to the State Board of Education within 30 days after receipt of the request by the parent.

These procedures may not prohibit a parent from accessing any of this student's education and health records created, maintained or used by the school district.
